- Camera with 75cm cable to Male 4pin camera connector
- 10m 4pin to 4pin extension cable
- Camera connection cable with Female 4pin camera connector, 2x RCA Female connectors and Female DC connector
- 1.45 DC power cable with Male DC connector
- Male to Male RCA splice
- Instructions

INSTALLATION

1. Remove the third brake light housing from the vehicle and remove the brake light assembly.
2. Attach the brake light assembly to the CAM-IV1 and refit to the vehicle taking care not to trap any cables.
3. Connect the Black wire to a suitable ground and connect the Red wire to the reversing light circuit or an interface which provides a reverse signal.
4. Connect the camera to the 4pin extension cable, connect the extension cable to the camera connection cable and connect the camera connection cable to the display screen via the Yellow RCA connector and supplied RCA splice and ensure that the image is displayed correctly.
