4

1. Prior to installation

Read the manual prior to installation. Technical knowledge is necessary for installation. The place of installation must be free of moisture and away from heat sources.

1.1. Delivery contents

1.2. Check compatibility of vehicle and accessories

Requirements

<i>Vehicle</i>	3series (E46), 5series (E39), 7series (E38), X3 (E83), Z4 (E85/86)
<i>Navigation</i>	Professional navigation systems without iDrive (MK2 til MK4)

2. Installation

Switch off ignition and disconnect the vehicle's battery! If according to factory rules disconnecting the battery has to be avoided, it is usually sufficient to put the vehicle in sleep-mode. In case the sleep-mode does not show success, disconnect the battery with a resistor lead.

1. Locate the video module in the vehicle.

Common locations are:

7series (E38) years 95 til 2001	in the boot, on the left, next to the navigation computer/ CD-changer
5series (E39) years 95 til 2003	behind the back seats under the boot floor cover
X5 til year 2004	next to the battery in the spare tyre cavity

2. Remove the blue plug by repositioning the black bracket and connect it to the TV-free interface.

3. Connect the blue plug of the TV-free interface to the video module.

3. Activation of the video-in-motion function

The video-in-motion function is activated permanently without disturbing the navigation performance.
